

McNeely Pest Control

Fly Barrier Service

NO FLY ZONE

Cafe

Fly Barrier Service

-  Comprehensive interior & exterior inspection to identify conditions attractive to flies, points of entry, and potential breeding sources - so that efforts can be focused on sanitation and needed exclusion
-  Exterior treatment using residual microencapsulated insecticide around doorways, drive through service windows and dumpsters - to kill flies that rest on surfaces prior to making their way inside
-  Exterior perimeter granular fly bait application - to attract and kill flies before they can enter into your facility
-  Installation of fly bait stations by rear exterior door way(s) - to aid in attracting flies to surfaces treated with liquid residual fly bait and kill them prior to entering into your facility
-  Interior treatment using Maxforce liquid fly bait around interior windows, vestibules, and doorways - to kill flies that may have flown directly in from outside
-  Installation and maintenance of interior insect light traps - to capture flies - to give added insurance of capture and containment of flies that may have flown in directly from outside

IF YOU HAVE ANY ISSUES WITH FLIES WE WILL COME BACK AND WORK WITH YOU TO CORRECT ANY FLY PROBLEM AT NO EXTRA CHARGE!
